ONE DOLLAR AND FIFTY CENTS A YEAR IN ADVANCE

OUR MILLION DOLLARS "LAYING" AROUND.

In the United States there are 599,000,000 fowls. They produce 1,921,000,000 dozens of eggs. These eggs are worth \$1,179,000,000. Poultry is worth one-third as much as corn, half as much as wheat, as much as cotton, and more than oats. This production seems enormous but the market is far from being flooded. It means only half an egg a day for every person in the United States. If you are eating more than this, you are getting more than your share.

Ninety per cent of the poultry money goes to the farmers.

We all keep poultry. We need for our family the wholesome food it produces—this alone is a reason enough for keeping it.

But aside from this, poultry is one of the most important items in the farm business. The chickens are worth "fooling with." They pay well. They will pay more if we give them a chance.

The chicken business is more than a woman's and kid's job. Let's give mother the help and equipment she needs to make her poultry worth while.

TUESDAY CLUB.

The bi-weekly meeting of the Tuesday Club was held Jan. 26th., at the home of Mrs. Walter S. Hudson on Knox Street. Nineteen members were present. Press items, pertaining to China and Japan, were used in response to roll call. Mrs. A. W. Hopper presided during the business session.

The program as planned by the leader Mrs. Edward Faulkner, included the following interesting contributions: "The Situation in the Far East," by Mrs. E. D. Sampson.

"Plants from China" and "China's Apothecary Shops"—Mrs. Fred Burman.

Mr. McDermid of Honolulu was the guest of the Club and gave an interesting talk on personal experiences in Hongkong and Shanghai. It was enjoyed by the club members.

A display of various articles from China and Japan was an interesting feature of the afternoon. These were passed on by Mr. McDermid as to whether they were real or false.

During the social hour the hostess, assisted by Mrs. H. Bassett Minton, served caramel cream, cake coffee and salted nuts.

The next meeting of the Club will be February 8th., with Mrs. John G. Tye on Main Street.

SAM BENNETT Declares Himself Candidate FOR RE-ELECTION

Hon. Sam M. Bennett of Wheeler, Knox County, wishes to draw attention to his announcement, wherein he asks the consideration of the voters in his candidacy for reelection to the Kentucky Legislature. He will appreciate the good offices of his friends in the matter.

Mrs. John Main is improving.

FREE BOOKS FOR ALL.

The Kentucky Library Commission has some new Traveling Libraries and is ready to send them to any group of people anywhere in the State who wants books to read.

These may be had by writing to the Commission at Frankfort. The libraries are sent out in cases, fifty volumes in a case, and may be kept for six months. The only charge is \$2.00 to cover the shipping costs. Stories, books of travel, history, children's books, are some of the subjects covered. Any teacher can get one. There are also Boy Scout libraries and Farmers libraries. The latter contain fifteen books and may be borrowed in addition to a general library of fifty volumes. The State furnishes these books for the education and recreation of its citizens.

JAIL DELIVERY IN HARLAN IS THWARTED IN EARLY HOURS OF THE MORNING.

Harlan, Ky., Jan. 29.—An effort to effect a wholesale jail delivery at Harlan County Jail here on Tuesday night was balked by jailer J. C. Metcalfe. It became known here yesterday. Six negro convicts had almost worked their way through the two-foot thick walls of the jail, only one layer of stone being between them and liberty when the attempt was discovered.

Three of the men, Ernest Washington, Sam Hines and Walter Davis, were charged with murder, while the fourth, Ed Austin, is charged with theft. The fifth, Henry Jones, is under sentence of two years in the state reformatory at Frankfort for shooting another negro. All five of the negroes come from Lynch, an unincorporated town, in the eastern end of the county.—Middleboro Daily News.

FOR SHERIFF

To The Republicans of Knox County:

After having been solicited by a good many Republicans of the County, I hereby announce myself as a candidate for Sheriff of Knox County, subject to the action of the Republican Primaries to be held on the first Saturday in August 1921.

I have served as deputy sheriff here in the county for about ten years, and I refer the people to my record as such officer, and if I am elected to the office of sheriff I promise that I will faithfully and honestly discharge the duties of sheriff without favor, and that I will execute all processes that may be placed in my hands as speedily as possible, and will do my very best to preserve peace and good order in the County.

Respectfully,
Steve Philpot.

Owing to the breaking of a cog on the linotype motor, we have had to cut the news this week.

DEATH RATE INCREASING

The safety of motor cars, trucks and other vehicles on the highways of the country and especially the dangers to their occupants at railroad grade crossings and on the bridges and culverts, is one of the subjects that will receive a great deal of attention at the American Good Roads Congress and National Good Roads Show to be held at the Coliseum, in Chicago, February 9 to 12 next.

The congress and show will be held under the auspices of the American Road Builders Association, which includes in its membership, the highway officials of the national government and those of the states, counties, cities and townships in the United States and Canada, together with highway engineers, users of roads, contractors and manufacturers of road building machinery, road materials and highway transportation equipment.

It is estimated that there are about 400,000 bridges of more than five-foot span in the United States. According to Willis Whited, bridge engineer of the Pennsylvania State Highway Department, it is probable that more than 80 per cent of these are unable to carry a thoroughly modern truck with an ample margin of safety. A majority of the bridges consist of a single span of wooden stringers with plank floors. Better construction and inspection of these bridges is one of the advances which members of the American Road Builders' Association are advocating and it is likely that a vigorous campaign to be strengthened. Truck traffic they say, is growing constantly these days in view. Engineers, like Mr. Whited, believe that the smaller bridges of the country will, for the most part, have to be rebuilt and the floors of the larger ones will be strengthened. Truck traffic, they say, is growing constantly heavier, and the limit is not in sight.

The constantly increasing number of grade crossing accidents, too, is a subject that is expected to cause considerable discussion at Chicago in connection with the growing demand for the elimination of grade crossings. Automobile accidents of one kind or another on the public highways killed 7,365 persons in 1919 according to the census figures for 1920 covering the Census Bureau's registration area, which embraces 80 per cent of the country's population. A total of 3,898 deaths occurred on the streets of the sixty-six largest cities of the country.

The deaths in 1919 from automobile accidents in the registration area showed an increase of 441 over those of 1918.

The enormous amount of automobile traffic on American roads and the consequent increase in liability to accident will be realized when it is considered that there are now 8,000,000 automobiles registered in the United States. In 1906 the number was only 48,000, an average of 1,000 to a state. In 1914 the number grew to 1,700,000. Twenty-five million Americans are now using motor cars. The actual vehicle-mile use of the roads, it is estimated has increased more than 500 per cent in the rural districts and 1,000 per cent in those near the large centers of population. There are 2,500,000 miles of rural highways in the United States and 40,000,000 automobile tires are now an annual necessity.

The Chicago meeting promises to be one of the greatest in point of attendance and in results ever held in the history of the good roads movement. The governors of the several states and territories of this country and Canada as well as the mayors of two thousand American and Canadian cities have been asked to appoint official delegates to the meeting. In some instances governors and mayors will head their delegations in person. Seven thousand road and street contractors and thousands of army, automotive and chemical engineers, agriculturists, editors, bankers, motorists and large users of trucks, as well as officials of boards of trade, chambers of commerce and other organizations interested in road and street improvement, have been invited to attend. The congress also will be open to any and all persons interested in improving the highways of the country.

If you like the Advocate, tell others. Costs \$1.50 a year.

AN OPPORTUNITY FOR AMBITIOUS YOUNG MEN.

Books are being written to help in almost any business, trade or profession. The Kentucky Library Commission has many of these and lends them to anyone in the State wishing to use them. The collection includes books on the following and many other subjects:

Automobile repairing
Carpentering
Dry cleaning
Electric railway engineering
Farming
House painting
Oil and coal mining
Retail buying and selling
Road building
Salesmanship
Sign painting
Steam and gas engines

These may be borrowed by writing the Kentucky Library Commission at Frankfort. The only expense is cost of postage.

FOR JAILOR

To my many friends, both men and women voters of Knox County, Ky.: I hereby announce myself as a Republican candidate for Jailor. I am fifty-one years of age and I nor any of my people have ever asked for or held office in our lives. I was born and raised in Knox County, Altho my education has been limited I obtained it altogether with all I own in this County.

If elected to this office I will endeavor to attend to the affairs of said office to the best of my ability, without favor to any particular class of men but will treat all alike with favors and a square deal.

Yes, for me, both men and women and will appreciate the favor and, if elected, I will be your obedient servant and will meet you in the future as the same George Goodin as in the past.

Your friend,
GEORGE GOODIN.

EYESIGHT RESTORED.

Mrs. Betty Patton, fifty years of age, colored, who was blind as the result of cataracts on both eyes, is now able to use the right eye as the result of an operation, paid for out of the Red Cross Mountain Fund, which is in charge of Miss Linda Noville. The patient was in the Good Samaritan Hospital for a little over three weeks. The cataract on the left eye is not yet ready for the operation. Mrs. Patton is able to read large print and can attend to her household duties and is naturally delighted at once more being able to see. The local people, white and colored paid her way to Lexington.

This is but one of millions of cases where the Red Cross has stepped in and given relief.

The Harboursville Electric Light Co. is building a new switch board so they may switch from one unit to the other. The two unit system means good service.

For Rent, three room house. Apply Ben H. Gregory, Advocate Office.

MICKIE SAYS

QUITTING ADVERTISING IN THIS HERE POPULAR FAMILY VISITOR IS LIKE THROWIN' YER CAR INTO REVERSE—YA ARE STILL ON TH' ROAD TO SUCCESS BUT GOIN' TH' WRONG WAY!

MILLIONS ARE DYING

From every pulpit in Kentucky, an appeal will be made Sunday February 6th for funds to save the inhabitants of those great Chinese provinces where the crop failure is complete and 10,000,000 persons face starvation. The Rev. Dr. E. J. Mullins chairman of the China Famine Fund in Kentucky has received replies from the ministers of all denominations in the State indicating that the answer to his appeal for the observance of Sunday February 6th as China Relief Sunday will be nearly 100 per cent.

The active campaign for funds will open about the 15th of February. The appointment of Dr. Mullins by President Wilson having been preliminary to the drive so that he could perfect an organization. Joseph Hodge has been appointed treasurer for the State and chairmen in each county will be named this week. The State Executive Committee is now being made up and will be composed of seven or nine men.

As pointed out in the President's proclamation, the Chinese people look to America as their benefactor. In view of the political situation in the Orient, many Kentucky ministers who have served as missionaries both in China and Japan, by the relief afforded to the Chinese at this time will do much to strengthen the spirit of alliance between China and America.

Zandorff Entertainers

A program of artistry and entertainment, featuring help selections and character sketches, will be given by the Zandorff entertainers on the Lyceum course here Tuesday evening, Feb. 5th.

This company is composed of Lill Lindorff, harpist and Horner Zander, reader and impersonator, and their entertainment will prove from start to finish.

The harp has the peculiar quality of touching the hearts of the audience. It is among the earliest and known musical instruments and it has never lost its popularity.

The combination of artistry and entertainment found in the Zandorff Company is sure to make a lasting and pleasing impression.

A NEW ADVERTISER

We beg to call attention to the advertising of Dr. Ryd, optometrist next door to the Post Office.

Dr. Ryd has been a resident of this county for eleven years, has never had a cross word with any one, has never had a lawsuit, been on the jury or served as a witness in a case. He has never been prosecuted, but has been a quiet industrious citizen of the county. He will appreciate all business in the scientific fitting of glasses.

Union College will play Sue Bennett Saturday night. Reserved seats tickets will be on sale at Herndon Drug Store Friday and Saturday.

Buy reserved seat tickets for P. C. vs Sue Bennett Saturday night at Herndon's Drug Store.

FOR JAILOR

At the solicitation of many friends and after a careful consideration I have decided to enter the race for Jailor, subject to the action of the Republican voters of Knox County at the Primary in August, 1921.

I want to say to the voters that I am in the race to win and solicit their support both men and women.

Never before have I or my people been before you asking your support for office and if elected to Jailor I promise when my term expires to step down and let some one else have a chance.

I am, as a majority of you citizens know a miner and have made my living and support for my family by digging coal until the 21st of October last year when I was injured by falling slate and have been in the hospital most of the time since I was hurt. On leaving the Jewess Hospital in Louisville last week where I went for an X-ray examination and to have a brace made in order that I might be able to walk again, I was informed by the physician that I would never be able to do manual labor again.

For more than five years I have been a Union miner and a member of the United Mine Workers of America, Local No. — Barbourville Ky. I ask the support of every voter in the county and assure them that if elected I will faithfully execute the duties of the office with credit to myself and to the county.

I expect to see each and every voter in the County and present my claim in person and if after thorough investigation I am found worthy I will gladly appreciate your vote. Thanking you in advance I remain,

John Goodman.

For Magistrate

John H. Turner is being solicited by his neighbors and friends to run for the office of magistrate in his home district. He is still undecided as to whether he will make the race.

NOTICE

Having sold out our entire interest in the Cut Rate Drug Co. we take this opportunity of sincerely thanking our friends for their patronage and bespeak the same on behalf of Messrs. Botner, Simpson and Dr. Herndon who have bought the business.

The theory that children should have measles and get through with them is not correct. In many European countries, where strict measures are taken to prevent their spread, it is seldom an epidemic occurs. Too often, the after effects are most serious. Every effort should be made to guard children from catching the disease.
